

Repair Priority Assessment

Module 5 — Must-Fix / Should-Fix / Don't-Fix

List every repair needed. Categorize each one. Add up the costs. This tells you your total repair picture and where to focus your budget.

Repair Description	Location	Category	Est. Cost	Decision
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip

		M / S / D	\$	Do / Skip
		M / S / D	\$	Do / Skip
TOTALS			\$ _____	

CATEGORY KEY

M = Must-Fix: Safety, function, or loan-blocking issues. Do these first.

S = Should-Fix: Low-cost, high-impact cosmetics. Do if budget allows.

D = Don't-Fix: Expensive projects with low ROI. Protect your equity — skip these.

COST SUMMARY

Total Must-Fix: \$ _____

Total Should-Fix: \$ _____

Total Don't-Fix (avoided): \$ _____ ← This is money you SAVED

Total Repair Budget Needed: \$ _____

Decision: ■ As-Is Sale ■ Prepared Sale ■ Hybrid (Must-Fix + Smart Prep only)
