

Financial Exploitation Prevention

Module 6 — Protect Against the \$28.3B Problem

Implement these strategies to protect the senior's finances. Seniors lose \$28.3 billion per year to exploitation.

WHO HAS ACCESS? — Account Inventory

Account	Institution	Who Has Access	Alerts On?	Trusted Contact?
Primary Checking			■ Y ■ N	■ Y ■ N
Savings			■ Y ■ N	■ Y ■ N
Credit Card 1			■ Y ■ N	■ Y ■ N
Credit Card 2			■ Y ■ N	■ Y ■ N
Investment/IRA			■ Y ■ N	■ Y ■ N
Other: _____			■ Y ■ N	■ Y ■ N

PROTECTION STRATEGIES

Account Security

- Limit account access to 1-2 trusted people only
- Set up transaction alerts (\$200-\$500 threshold)
- Name a trusted contact at each financial institution
- Review all statements monthly for unusual activity
- Freeze credit with all 3 bureaus (Equifax, Experian, TransUnion)

Verification Rules

- Never approve repairs from unsolicited calls or door knocks
- Get 3 bids for any work over \$1,000
- Verify charity legitimacy before any donation over \$100
- Never give personal info over phone, email, or text
- If a deal requires immediate action, it's a scam

Family Oversight

- One designated person monitors all finances monthly
- Require two signatures for transactions over \$5,000
- Regular family financial check-ins (monthly or quarterly)
- Mail forwarded or monitored if senior lives alone

RED FLAGS — ACT IMMEDIATELY

- Unexplained withdrawals or transfers
- New 'friends' or helpers interested in finances
- Sudden changes in spending patterns
- Missing mail or financial statements
- Unpaid bills despite adequate funds
- Changes to beneficiary designations

■ Senior seems fearful about discussing money

EMERGENCY CONTACTS

Adult Protective Services (local): _____

Elder Law Attorney: _____

Local Police Non-Emergency: _____

Eldercare Locator (national): 1-800-677-1116
