

Plan B Timeline

Module 14 — When Aging in Place Is No Longer Viable

TRIGGER POINTS — When would we transition?

Health Triggers

- Fall with injury (broken bone, head injury)
- Hospitalization 3+ times in 6 months
- Cognitive decline (getting lost, forgetting medications)
- Mobility loss (can't navigate home safely)
- Progressive disease diagnosis requiring escalating care

Safety Triggers

- Can't be left alone safely
- Wandering or getting lost
- Medication errors becoming frequent
- Home becoming unmanageable (hoarding, neglect)

Financial Triggers

- In-home care costs exceeding senior living costs
- Home maintenance costs unsustainable
- Savings being depleted faster than planned

ALTERNATIVE LIVING ARRANGEMENTS RESEARCHED
